Rooks County Regional

The Rooks County Regional Airport (RCP) was dedicated on Sept. 29, 2012. The new all-weather Airport replaced grass runway airports in the Rooks County communities of Stockton and Plainville.

A five-member volunteer board manages and operates the Airport as the Rooks County Airport Commission in partnership with the Rooks County Economic Development Office.

For more information about ground lease and building opportunities at the Airport, please contact the Rooks County Airport Commission at:

- Flexible tract sizes
- Utility infrastructure complete
- Airside and Non-airside locations available
- Ready for construction & occupancy

In the heart of commerce in Northwest Kansas, the Rooks County Regional Airport (RCP) offers business and recreational flyers the opportunity to enjoy hometown comfort with world-class impact.

Stockton's location, which is central to both U.S. coasts, is within a day's roundtrip flight of many of the major U.S. business populations in the Midwest, including such major markets as Cheyenne, Dallas, Denver, Des Moines, Houston, Kansas City, Little Rock, Oklahoma City, Omaha and St. Louis.

RCP offers flexible sites for lease and development of hangars or businesses at the Airport. The Airport is 5 miles south of Stockton / 7 miles north of Plainville, adjacent to U.S. Highway 183, and is just 40 minutes north of Interstate 70.

Rooks County offers a strong, supportive business climate, with the cost of doing business being low. The industrial park area surrounding the airport is open to business interest that are aviation-related or non-aviation in nature.

Let our development team create a business package that provides the right incentives to locate your company on the Great Plains.
